

CONGRATULATIONS!

Integrated Health Partners (IHP) is pleased to announce Blue Cross Blue Shield of Michigan has designated these primary care practices Patient Centered Medical Homes (PCMH) for 2022-2024.

The practices are among a select group of primary care physicians in Michigan who are improving health care quality by adopting the PCMH model of care. Practices take a holistic and comprehensive approach to patient care, helping patients meet their health goals and keep track of all of their specialist visits, test results and medications. They offer extended access from the care team, coordinate complementary care, and help patients learn to better manage conditions like asthma and diabetes. Designated practices meet patients' needs by providing more personalized, whole-person care. This change in practice patterns has resulted in higher quality care, with better outcomes and lower cost.

In the thirteenth year of its nationally renowned program, Blue Cross Blue Shield of Michigan has designated over 1,700 practices across Michigan as Patient Centered Medical Homes. IHP is pleased to announce that all twenty-six of its primary care practices received PCMH designation this year! IHP's mission is to assure accessible, cost effective, high quality health care for our community. For more information on IHP, visit our website at www.integratedhealthpartners.net or call 269-425-7110.
