

Patient Engagement

Patient Engagement course:

The goal of this course is for all Care Team Members to learn engagement tools/skills to have productive conversations with patients about their health including basic motivational interviewing skills.

The Care Team Member will build upon this foundation, to utilize patient engagement skills in different situations such as Medication Assisted Treatment, (MAT) and Palliative Care.

Successful Course Completion includes:

- Attendance at the entire course. If attending live virtual, you must have audio and see the live slides
- Completion of the course post-test: need to have a score of 80% or greater
- Completion of the course evaluation
